Re: 18-0168-01 (63689), 18-0169-01 (63690), 18-0170-01 (63691), 56-0067-01 (63692), 56-0068-01 (63693), and
85-0040-01 (63701)

Dear Mr. Glatz:

The Division has reviewed your construction permit applications dated April 9, 2010, and April 30, 2010, for emission sources 18-0168-01, 18-0169-01, 18-0170-01, 56-0067-01, 56-0068-01, and 85-0040-01 (generators). Since you did not apply for a construction permit prior to commencing construction of these generators on or about October 1, 2009, you are in violation of Rule 1200-3-9-.01, which requires construction permit applications to be submitted as much as four months prior to the estimated starting date of construction. Since you operated these sources on or about October 31, 2009, without a valid operating permit, you are in violation of Rule 1200-3-9-.02(2) of the Regulations.

The Division received an email from Mr. Mike Freese dated May 26, 2010. Based on the review of this information, the Technical Secretary has elected to take no further action on the violations cited above.

Construction permits are hereby issued for the operation described. Please note the conditions on the permits. If you have any questions regarding this correspondence, please contact Ms. Elizabeth Peeler at (615) 532-9200.

Sincerely,

Randall Thompson, Chief
